

NATSKI NAKANO

FRONT-END WEB DEVELOPER

I'm a front-end developer specializing in creating responsive and user-friendly applications. I enjoy building interactive features and continuously enhancing my skills in various front-end frameworks. My foundational backend knowledge gives me a well-rounded understanding of full-stack challenges. I'm eager to bring fresh ideas, adapt to new tools, and stay current with industry trends.

- CSS
- Express
- Spline 3D Animation
- React Native
- Bootstrap
- Rest APIs
- Figma
- Redux
- Node.JS
- SEO Strategy
- Firebase Firestore

Work History

Ahmed Tech Academy Front-End Web Developer (Contract) / April 2024 - Current

- Designed and developed a responsive website for a coding bootcamp start-up using React, applying UI/UX principles to ensure a user-friendly and visually appealing experience.
- Implemented an SEO strategy by conducting keyword research using Google Ads Keyword Planner to create Schema Markup in React with JSON-LD, ultimately improving search engine visibility through effective utilization of Schema.org and the Google Rich Results Test.
- Created an engaging 3D robot character in Spline that greets users, improving first impressions and site engagement.
- Developed a chatbot to enhance user interaction and support by leveraging ChatGPT API. Created a JSON file to store comprehensive school information, enabling the bot to provide answers directly from this data or, for questions beyond the available information, to utilize ChatGPT assistance.
- Developed a dynamic blog page that features infinite scroll for improved user experience, utilizing react-helmet-async for SEO optimization and React Router for seamless navigation.
- Utilized EmailJS for setting up user-friendly forms, facilitating efficient user communication.

Nordstrom Sr. Designer / May 2015 - June 2023

- As the lead designer of sweaters and knits for the Nordstrom brands, I developed collection ideas that aligned with our target customer and brand vision, while providing mentorship and guidance to the design team. I demonstrated the ability to collaborate effectively with leadership and cross-functional teams to implement cohesive designs, ensuring strategic alignment and maintaining quality through close collaboration with vendors.

Projects

Portfolio - React responsive portfolio website
